

DEVELOPMENT OF REGULATIONS

The Columbia Local Board of Education delegates to the Superintendent the function of specifying required actions and designing the detailed arrangements under which the schools will be operated. These regulations and detailed arrangements will constitute the regulations governing the schools. They must be in every respect consistent with the policies adopted by the Board of Education. District-wide regulations will be approved by the Board and placed in the policy manuals.

The Board of Education will also approve regulations when required by law, or when the Superintendent or Board feels that Board approval is necessary in light of strong community attitudes or probable staff reaction.

Adopted: January 18, 1989
