

STUDENT INSURANCE PROGRAM

The Columbia School District will make available to parents, accident insurance for their children at a nominal premium. The insurance of the child is left entirely to the parent's discretion. The school has no pecuniary or other interest in the service other than to make it available to those who desire it.

Each year in September the school offers a School Child Accident Policy that covers all personal injuries while coming to, during, and going home from school, and while a participant in any school-sponsored activity at school or away from school, day or night.

All students participating in interscholastic sports are required to carry this insurance unless the family already has a policy which covers injury in the sport involved.

Adopted: June 10, 1965

Revised: date of manual adoption
